

Technology

Puron® refrigerant – environmentally sound and won't deplete the ozone layer.

- 1 Two-stage compressor** – the heart of the air conditioner, the compressor pumps refrigerant through the system.
- 2 Infinity™ electronic control board** – allows precise control of two-stage operation and works with the Infinity™ Control for the ultimate in comfort. "Smart" electronics track previous cycles and automatically select the best settings for maximum comfort and efficiency.
- 3 Copper Microtube™/aluminum fin coil** – transfers heat outside to maximize indoor cooling while resisting corrosion.
- 4 Carrier's exclusive Silencer System II™** – helps deliver quieter operation by optimizing airflow, minimizing vibration and using sound-absorbing materials. The five key components include:
 - a. Silencer top
 - b. Integrated fan motor and forward-swept fan blade
 - c. Compressor vibration isolator plate
 - d. Sound hood
 - e. Split-post compressor grommets
- 5 High- and low-pressure switches** – protect the system by shutting it off when harmful conditions are detected.
- 6 Filter drier** – constantly filters the refrigerant to remove moisture or contaminants that can damage your system.
- 7 WeatherArmor Ultra™ protection package** – combines four design elements that protect your comfort.
 - a. Galvanized steel cabinet
 - b. Louvered coil guard
 - c. Baked-on powder paint
 - d. Painted, ceramic-coated screws
