

Things to Consider Before You Buy

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating, cooling and indoor air quality products. Your Carrier dealer can help you choose the best system for your home that includes industry exclusive, state-of-the-art air purification technology.

How Important is Indoor Air Quality?

Considering that most people spend 90 percent of their time indoors, breathing an estimated 2,700 gallons of air every day, indoor air can be a key factor in your quality of life. Indoor air pollution can aggravate allergies, asthma, and other respiratory ailments.

How Clean is Your Indoor Air?

Your home is the one place you should feel safe, it's your comfort zone. However, the air inside your home could be up to five times more polluted than outside air. Pollen and mold spores enter through open doors and windows, bacteria and viruses spread between family and friends, fine dust particles get kicked up from floors and furniture, dander and hair fall from pets. These contaminants can circulate in the air throughout your home spreading disease or triggering allergic and asthmatic reactions. You don't need to hold your breath. Carrier has a complete line of air filtration and purification products designed to enhance the air quality in your home – led by the exclusive Infinity™ Air Purifier.

Healthier Air for the Entire Home

The Infinity™ Air Purifier is Carrier's premier air purification solution. It's ideal for homeowners with allergy concerns, those susceptible to airborne germs, such as infants and the elderly, and those sensitive to the effects of molds, pollen, pets and more. And, it is an integral component to Carrier Healthy Home Solutions.

- The Infinity Air Purifier offers extremely high air filtration efficiency and patented germicidal technology so effective it even captures and kills airborne pathogens such as bacteria, viruses and mold.
- Unlike many portable air cleaners, the Infinity Air Purifier is extremely quiet and can treat the air throughout your entire home. In fact, the Infinity Air Purifier cleans over 100 times more air than some of the popular portable units.
- The Infinity Air Purifier uses the same exclusive technology trusted to protect secure government facilities and hospital room patients.
- The Infinity Air Purifier is as convenient as it is powerful because no cleaning is required. Simply remove and replace the media cartridge periodically to maintain peak performance.

How Does It Work?

Truly a whole-home solution, the Infinity™ Air Purifier treats 100% of the air flowing through your home comfort system using a unique three-step process. Here's how it works:

- Step 1:** The Infinity™ Air Purifier uses precision point ionization to charge particles as they enter the purifier.
- Step 2:** A specially designed, continuously charged media captures airborne particles.
- Step 3:** Exclusive, state-of-the-art technology kills captured viruses, bacteria, mold spores and other allergens.

How They Compare

If you want to breathe healthier air, enjoy easier maintenance, protect your home comfort equipment and maximize system efficiency, the Infinity™ Air Purifier is the right choice for you.

* Efficiency based on a 16 pt MERV scale

Warranty

The Infinity™ Air Purifier is protected by a five-year limited warranty. Extended warranties are also available. Ask your Carrier dealer for further details.
